

Government to gazette compulsory testing notice

The Government will exercise the power under the Prevention and Control of Disease (Compulsory Testing for Certain Persons) Regulation (Cap. 599J) and publish in the Gazette a compulsory testing notice, which requires any person who had been present at three specified premises during the specified period (persons subject to compulsory testing) to undergo a COVID-19 nucleic acid test.

A spokesman for the Food and Health Bureau (FHB) said today (January 8), "To cut the transmission chain in the community as soon as possible, the Government has expanded the scope for 'compulsory testing on mandatory basis'. If confirmed cases not epidemiologically linked to each other were found in two or more units in the same building in the past 14 days, the building would be included in the compulsory testing notice under Cap. 599J. Persons who had been present at the relevant building in the past 14 days will have to undergo compulsory testing. Three buildings fulfilling the above criteria will be covered by the compulsory testing notice today."

Details of persons subject to compulsory testing are as follows:

Any person who had been present at any of the following specified premises for more than two hours at any time during the period from December 26, 2020, to January 8, 2021 (including but not limited to visitors, residents and workers), have to undergo testing by January 11, 2021. If persons subject to compulsory testing have previously undergone testing between January 6 and January 8, 2021, they would be taken to have complied with the requirements set out in the compulsory testing notice.

1. Mei Sau House of Mei Tin Estate, 1 Heung Fan Liu Street, Tai Wai
2. Yan Ching House of Kai Ching Estate, 12 Muk Hung Street, Kowloon City
3. 26 Reclamation Street, Jordan (a building located on No. 26 Reclamation Street)

"Based on recent experience, persons subject to compulsory testing would feel more relieved if they receive SMS (mobile phone text message) notifications confirming the negative results of the tests. Such SMS notifications can also facilitate law enforcement. Therefore, the Government has updated the testing routes applicable to compulsory testing notices, which only include those where SMS notifications confirming negative test results would be issued to persons who underwent testing afterwards. The Government is reviewing the need for setting up mobile specimen collection stations near the relevant buildings. Apart from mobile specimen collection stations, persons subject to compulsory testing can also choose to attend any of the community testing centres in all districts to receive testing free of charge."

Persons subject to compulsory testing may choose to undergo testing via

the following routes:

1. To visit any of the mobile specimen collection stations (see the list and target groups (if applicable) at www.coronavirus.gov.hk/eng/early-testing.html) for testing;
2. To attend any of the community testing centres (see the list at www.communitytest.gov.hk/en/);
3. To obtain a deep throat saliva specimen collection pack from any of the 121 post offices, vending machines set up at 20 MTR stations or 47 designated general outpatient clinics (GOPCs) of the Hospital Authority and return the specimen to one of the designated specimen collection points (see the distribution points and times, and the specimen collection points and times, at www.coronavirus.gov.hk/eng/early-testing.html);
4. To undergo testing at any of the GOPCs of the Hospital Authority as instructed by a medical professional of the Hospital Authority;
5. To self-arrange testing provided by private laboratories which are recognised by the Department of Health and can issue SMS notifications in respect of test results (see the list at www.coronavirus.gov.hk/pdf/List_of_recognised_laboratories RTPCR.pdf); or
6. To use a specimen bottle distributed to the relevant specified premises by the Centre for Health Protection (if applicable), and return the specimen bottle with the sample collected as per the relevant guidelines.

The spokesman cautioned that testing received at accident and emergency departments of the Hospital Authority or during hospital stays, or testing provided by private laboratories which cannot issue SMS notifications in respect of test results, does not comply with the requirements of the aforementioned compulsory testing notice.

"If persons subject to compulsory testing have symptoms, they should seek medical attention immediately and undergo testing as instructed by a medical professional. They should not attend the mobile specimen collection stations or the community testing centres."

Persons subject to compulsory testing must keep the SMS notification containing the result of the test for checking by a law enforcement officer when the officer requires the persons to provide information about their undergoing the specified test.

Furthermore, persons subject to testing under the compulsory testing notice should, as far as reasonably practicable, take appropriate personal disease prevention measures including wearing a mask and maintaining hand hygiene, and, unless for the purpose of undergoing the specified test, stay at their place of residence and avoid going out until the test result is ascertained as far as possible.

Any enquiries on compulsory testing arrangements may be addressed to the

hotline at 6275 6901, which operates daily from 9am to 6pm. If persons subject to compulsory testing plan to conduct testing at any of the community testing centres, they can check the centre's appointment status in advance. The hotlines of the community testing centres are at www.communitytest.gov.hk/en/info/.

The Government will continue to trace possibly infected persons who had been to the relevant premises, and seriously verify whether they had complied with the testing notice. Any person who fails to comply with the testing notice commits an offence and may be fined a fixed penalty of \$5,000. The person would also be issued with a compulsory testing order requiring him or her to undergo testing within a specified time frame. Failure to comply with the order is an offence and the offender would be liable to a fine at level 4 (\$25,000) and imprisonment for six months.

The spokesman said, "The Government urges all individuals who are in doubt about their own health conditions, or individuals with infection risks (such as individuals who visited places with epidemic outbreaks or contacted confirmed cases), to undergo testing promptly for early identification of infected persons. The FHB will publish compulsory testing notices regarding particular groups when necessary taking into account the epidemic developments and the testing participation rate."
