

# Government updates list of places of recognised vaccination records

The Government announced today (March 7) that it will accept the vaccination records issued by Benin and Jordan as recognised vaccination records for Hong Kong residents who have stayed in Group A specified places for boarding flights for Hong Kong. The relevant arrangements will take effect at 0.00am on March 9 (Wednesday).

The Government announced earlier that it accepts vaccination records recognised under the EU Digital COVID Certificate mechanism as recognised vaccination records required for the purpose of boarding flights for Hong Kong from high-risk Group A specified places. As the European Union (EU) has recently announced the recognition of the vaccination records issued by Benin and Jordan as being equivalent to vaccination records issued by EU member states under the mechanism, the Government will therefore also accept the vaccination records issued by these places as recognised vaccination records from 0.00am on March 9.

Benin and Jordan are currently Group A specified places. From 0.00am on March 9, Hong Kong residents who hold a vaccination record issued by the relevant authorities of these places in the prescribed format can board a flight for Hong Kong from Group A specified places. The vaccines administered for the relevant travellers have to be vaccines listed on the Government's List of COVID-19 Vaccines Recognised for Specified Purposes.

The Government has implemented stringent inbound prevention and control measures for travellers arriving at Hong Kong from overseas places. Travellers who have stayed in Group A specified places can only board a flight for Hong Kong if they are Hong Kong residents who are fully vaccinated and hold recognised vaccination records. Recognised vaccination records include (a) vaccination records issued by Hong Kong, (b) vaccination records or certifications issued by Mainland or Macao authorities or an institution recognised by Mainland or Macao authorities, (c) vaccination records or certifications issued by an authority or recognised institution of a country where its national regulatory authority is designated by the World Health Organization as a stringent regulatory authority, (d) vaccination records or certifications issued by a relevant authority or recognised institution of a country with which Hong Kong has reached a recognition agreement arrangement with its government, or (e) vaccination records issued by an organisation with which Hong Kong has reached a recognition agreement arrangement.

The list of places or organisations that are accepted for issuing recognised vaccination records is set out in the Annex, and will be uploaded to the Government's COVID-19 thematic website.

The Government will continue to discuss with other places on the arrangements for the recognition of vaccination records, and will update the

list as recognition arrangements are agreed with these places.
