

Government updates list of places of recognised vaccination records

The Government announced today (October 11) that it has concluded discussions with the Government of Sri Lanka to accept vaccination records issued by the country as recognised vaccination records for Hong Kong residents who have stayed in Group A specified places under the mechanism. The Government will also accept the vaccination records issued by non-Group A specified places including Guernsey, Jersey and some British Overseas Territories for boarding flights for Hong Kong by Hong Kong residents who have stayed in Group A specified places. The relevant arrangements will take effect at 0.00am on October 13 (Wednesday).

From 0.00am on October 13, Hong Kong residents who hold vaccination records issued by the relevant authority of Sri Lanka in the prescribed format can board a flight for Hong Kong from Group A specified places. The vaccines administered for the relevant travellers have to be vaccines listed on the Government's List of COVID-19 Vaccines Recognised for Specified Purposes.

The Government has also concluded discussions with the Government of the United Kingdom on the arrangements regarding the recognition of vaccination records of Guernsey, Jersey and some British Overseas Territories (including Anguilla, Cayman Islands, Falkland Islands, Gibraltar and Montserrat, as well as Saint Helena, Ascension and Tristan da Cunha), which will also take effect at 0.00am on October 13. Although these places are currently not Group A specified places, the relevant arrangements will enable Hong Kong residents who hold vaccination records issued by the relevant authorities of these places in the prescribed format to board a flight for Hong Kong from Group A specified places.

The Government has implemented since August 20 stringent inbound prevention and control measures for travellers arriving at Hong Kong from overseas places. Travellers who have stayed in Group A specified places on the day of boarding or in the 21 days before that day can only board a flight for Hong Kong if they are Hong Kong residents who are fully vaccinated and holding recognised vaccination records. Recognised vaccination records include those issued by Hong Kong, Mainland or Macao authorities or an institution recognised by Mainland or Macao authorities, an authority or recognised institution of a country where its national regulatory authority is designated by the World Health Organization as a stringent regulatory authority, or a relevant authority or recognised institution of a country with which Hong Kong has reached a recognition agreement arrangement with its government.

The list of places that are accepted for issuing recognised vaccination records is set out in the Annex, and will be uploaded to the Government's COVID-19 thematic website.

The Government will continue to discuss with other places on the arrangements for the recognition of vaccination records, and will update the list as recognition arrangements are agreed with these places.
