

Gov't bolsters storm defence

To better prepare for future typhoons and extreme weather conditions, the Civil Engineering and Development Department has introduced new survey technologies and is carrying out improvement works to marine facilities.

News.gov.hk spoke to the department's land surveyor and two engineers for an insight into the new technologies deployed and the works being carried out to protect Hong Kong's coastal areas from storm surges.

The story appears on news.gov.hk today (July 21) in text and video format.
