

# Grading of beach water quality released

The Environmental Protection Department (EPD) today (October 8) released the latest grading of water quality for 39 gazetted beaches (see Note 1) and one non-gazetted beach (i.e. Discovery Bay, see Note 2).

Twenty-six beaches were rated as Good (Grade 1) and 14 as Fair (Grade 2).

Grade 1 beaches are:

Big Wave Bay Beach*	Ma Wan Tung Wan Beach*

Compared with the grading released last week, Kwun Yam Beach, Pui O Beach and Silverstrand Beach have been changed from Grade 1 to Grade 2.

"The changes are generally within the normal range of fluctuation of the bacteriological water quality of the beaches," an EPD spokesman said.

Under the present grading system, beaches are classified into four

grades, namely Good (Grade 1), Fair (Grade 2), Poor (Grade 3) and Very Poor (Grade 4), according to the level of E. coli in the water. Grades are calculated on the basis of the geometric mean of the E. coli counts on the five most recent sampling occasions.

A summary of beach grades is published weekly before the weekend. The latest beach grades based on the most current data may be obtained from the EPD's website on Beach Water Quality ([www.epd.gov.hk/epd/beach](http://www.epd.gov.hk/epd/beach)) or the beach hotline, 2511 6666.

Note 1: Lifeguard services are provided by the Leisure and Cultural Services Department at 24 gazetted beaches, marked with an asterisk above, from October 1.

Note 2: Discovery Bay is a non-gazetted beach without lifeguard service.
