## <u>Grading of beach water quality</u> released

The Environmental Protection Department (EPD) today (June 7) released the latest grading of water quality for 39 gazetted beaches (see Note 1) and one non-gazetted beach (see Note 2).

Thirteen beaches were rated as Good (Grade 1), 21 as Fair (Grade 2), five as Poor (Grade 3) and one as Very Poor (Grade 4).

## Grade 1 beaches are:

Chung Hom Kok Beach
Deep Water Bay Beach\*
Hap Mun Bay Beach\*
Hung Shing Yeh Beach\*
Kiu Tsui Beach
Lo So Shing Beach
Middle Bay Beach

Repulse Bay Beach\*
South Bay Beach\*
St. Stephen's Beach
Tong Fuk Beach
Turtle Cove Beach
Upper Cheung Sha Beach

## Grade 2 beaches are:

Anglers' Beach\*
Big Wave Bay Beach\*
Butterfly Beach\*
Cafeteria New Beach
Casam Beach\*
Cheung Chau Tung Wan Beach\*
Clear Water Bay First Beach
Clear Water Bay Second Beach\*
Discovery Bay Tai Pak Beach
Golden Beach\*
Hoi Mei Wan Beach

Kwun Yam Beach
Lido Beach\*
Lower Cheung Sha Beach
Pui O Beach\*
Shek O Beach\*
Silver Mine Bay Beach\*
Silverstrand Beach\*
Stanley Main Beach\*
Tai Po Lung Mei Beach\*
Trio Beach

## Grade 3 beaches are:

Approach Beach Cafeteria Old Beach Kadoorie Beach Ma Wan Tung Wan Beach\*
Ting Kau Beach\*

Grade 4 beach is:

Castle Peak Beach

Compared with the grading released last week, Anglers' Beach has been

upgraded from Grade 3 to Grade 2. Lower Cheung Sha Beach and Silver Mine Bay Beach have been changed from Grade 1 to Grade 2, and Castle Peak Beach from Grade 3 to Grade 4.

"We observed water quality deterioration at Castle Peak Beach, which was largely due to the recent prolonged unstable weather. We will continue to closely monitor the beach water quality," an EPD spokesman said.

Under the present grading system, beaches are classified into four grades, namely Good (Grade 1), Fair (Grade 2), Poor (Grade 3) and Very Poor (Grade 4), according to the level of E. coli in the water. Grades are calculated on the basis of the geometric mean of the E. coli counts on the five most recent sampling occasions.

While the ratings represent the general water quality at the beaches, the EPD spokesman reminded members of the public that water quality could be temporarily affected during and after periods of heavy rain. Bathers should avoid swimming at beaches for up to three days after a tropical cyclone or heavy rainfall.

A summary of beach grades is published weekly before the weekend. The latest beach grades based on the most current data may be obtained from the EPD's website on Beach Water Quality (<a href="www.epd.gov.hk/epd/beach">www.epd.gov.hk/epd/beach</a>) or the beach hotline, 2511 6666. Members of the public can also obtain the latest daily water quality forecast information for all beaches that are open for swimming through the Beach Water Quality Forecast mobile application (available for download from: <a href="www.epd.gov.hk/en/BWQApp">www.epd.gov.hk/en/BWQApp</a>) or the dedicated beach water quality forecast page (<a href="www.epd.gov.hk/en/BWQForecast">www.epd.gov.hk/en/BWQForecast</a>) on the EPD's beach thematic website.

Note 1: Lifesaving services are provided by the Leisure and Cultural Services Department at 21 gazetted beaches, marked with an asterisk (\*) above, from June 1. Due to the damage caused to the footpaths leading to Chung Hom Kok Beach by landslides, the beach is temporarily closed until further notice. For details, please refer to the Leisure and Cultural Services Department's Special Announcement (<a href="www.lcsd.gov.hk/en/beach/index.html">www.lcsd.gov.hk/en/beach/index.html</a>).

Note 2: This refers to Discovery Bay Tai Pak Beach which is a non-gazetted beach that has no lifesaving service.
