

Grading of beach water quality released

The Environmental Protection Department (EPD) today (August 16) released the latest grading of water quality for 39 gazetted beaches (see Note 1) and one non-gazetted beach (see Note 2).

Seventeen beaches were rated as Good (Grade 1), 22 as Fair (Grade 2), and one as Poor (Grade 3).

Grade 1 beaches are:

Cheung Chau Tung Wan Beach*	Shek O Beach*
Clear Water Bay Second Beach*	South Bay Beach*
Discovery Bay Tai Pak Beach	St. Stephen's Beach
Hap Mun Bay Beach*	Stanley Main Beach*
Hung Shing Yeh Beach*	Tai Po Lung Mei Beach*
Kiu Tsui Beach	Trio Beach
Kwun Yam Beach	Turtle Cove Beach
Lo So Shing Beach	Upper Cheung Sha Beach
Repulse Bay Beach*	

Grade 2 beaches are:

Anglers' Beach*	Golden Beach*
Approach Beach	Hoi Mei Wan Beach
Big Wave Bay Beach*	Kadoorie Beach
Butterfly Beach*	Lido Beach*
Cafeteria New Beach	Lower Cheung Sha Beach
Cafeteria Old Beach	Ma Wan Tung Wan Beach*
Casam Beach*	Middle Bay Beach
Castle Peak Beach	Silver Mine Bay Beach*
Chung Hom Kok Beach	Silverstrand Beach*
Clear Water Bay First Beach	Ting Kau Beach*
Deep Water Bay Beach*	Tong Fuk Beach

Grade 3 beach is:

Pui O Beach*

Compared with the grading released last week, Discovery Bay Tai Pak

Beach has been upgraded from Grade 2 to Grade 1. Chung Hom Kok Beach has been changed from Grade 1 to Grade 2, and Pui O Beach from Grade 2 to Grade 3.

"The changes are generally within the normal range of fluctuation of the bacteriological water quality of the beaches," an EPD spokesman said.

Under the present grading system, beaches are classified into four grades, namely Good (Grade 1), Fair (Grade 2), Poor (Grade 3) and Very Poor (Grade 4), according to the level of E. coli in the water. Grades are calculated on the basis of the geometric mean of the E. coli counts on the five most recent sampling occasions.

While the ratings represent the general water quality at the beaches, the EPD spokesman reminded members of the public that water quality could be temporarily affected during and after periods of heavy rain. Bathers should avoid swimming at beaches for up to three days after a tropical cyclone or heavy rainfall.

A summary of beach grades is published weekly before the weekend. The latest beach grades based on the most current data may be obtained from the EPD's website on Beach Water Quality (www.epd.gov.hk/epd/beach) or the beach hotline, 2511 6666. Members of the public can also obtain the latest daily water quality forecast information for all beaches that are open for swimming through the Beach Water Quality Forecast mobile application (available for download from: www.epd.gov.hk/en/BWQApp) or the dedicated beach water quality forecast page (www.epd.gov.hk/en/BWQForecast) on the EPD's beach thematic website.

Note 1: Lifesaving services are provided by the Leisure and Cultural Services Department at 21 gazetted beaches, marked with an asterisk (*) above, from June 1. Due to the damage caused to the footpaths leading to Chung Hom Kok Beach by landslides, the beach is temporarily closed until further notice. For details, please refer to the Leisure and Cultural Services Department's Special Announcement (www.lcsd.gov.hk/en/beach/index.html).

Note 2: This refers to Discovery Bay Tai Pak Beach which is a non-gazetted beach that has no lifesaving service.
