<u>Grading of beach water quality</u> released

The Environmental Protection Department (EPD) today (May 31) released the latest grading of water quality for 38 gazetted beaches that are open for swimming and one non-gazetted beach (i.e. Discovery Bay*).

Fifteen beaches were rated as Good (Grade 1), 14 as Fair (Grade 2), nine as Poor (Grade 3) and one as Very Poor (Grade 4).

Grade 1 beaches are:

Cheung Chau Tung Wan Beach
Chung Hom Kok Beach
Discovery Bay
Hap Mun Bay Beach
Hung Shing Yeh Beach
Kwun Yam Beach
Lo So Shing Beach
Pui O Beach

Repulse Bay Beach Shek O Beach South Bay Beach St Stephen's Beach Stanley Main Beach Tong Fuk Beach Upper Cheung Sha Beach

Grade 2 beaches are:

Cafeteria New Beach
Cafeteria Old Beach
Castle Peak Beach
Clear Water Bay First Beach
Clear Water Bay Second Beach
Deep Water Bay Beach
Golden Beach

Kadoorie Beach
Kiu Tsui Beach
Middle Bay Beach
Silverstrand Beach
Ting Kau Beach
Trio Beach
Turtle Cove Beach

Grade 3 beaches are:

Anglers' Beach
Approach Beach
Big Wave Bay Beach
Butterfly Beach
Casam Beach

Hoi Mei Wan Beach Lido Beach Ma Wan Tung Wan Beach Silver Mine Bay Beach Grade 4 beach is: Lower Cheung Sha Beach

* Discovery Bay is a non-gazetted beach without lifeguard service.

Compared with the grading released last week, Kiu Tsui Beach, Trio Beach and Turtle Cove Beach have been changed from Grade 1 to Grade 2; Approach Beach, Casam Beach, Lido Beach and Ma Wan Tung Wan Beach from Grade 2 to Grade 3; and Lower Cheung Sha Beach from Grade 1 to Grade 4.

"The deterioration of water quality at Lower Cheung Sha Beach was due to the heavy rain on May 28, while the changes in the other beaches are generally within the normal range of fluctuation of the bacteriological water quality of the beaches," an EPD spokesman said.

Under the present grading system, beaches are classified into four grades according to the level of E. coli in the water. Grades are calculated on the basis of the geometric mean of the E. coli counts on the five most recent sampling occasions.

While the ratings represent the general water quality at the beaches, the EPD spokesman reminded members of the public that water quality could be temporarily affected during and after periods of heavy rain. Bathers should avoid swimming at beaches for up to three days after a storm or heavy rainfall.

A summary of beach grades is published weekly before the weekend. The latest beach grades based on the most current data may be obtained from the department's website on Beach Water Quality (www.epd.gov.hk/epd/beach) or the beach hotline, 2511 6666.
