Approach Beach	Hoi Mei Wan Beach
Butterfly Beach	Lido Beach
Casam Beach	Shek O Beach
Castle Peak Beach	Silverstrand Beach
Clear Water Bay First Beach	Ting Kau Beach

Grade 3 beaches are:

Anglers' Beach	Ma Wan Tung Wan Beach
----------------	-----------------------

Compared with the grading released last week, Discovery Bay has been upgraded from Grade 4 to Grade 1; Kadoorie Beach from Grade 2 to Grade 1. Shek O Beach has been changed from Grade 1 to Grade 2; Anglers' Beach and Ma Wan Tung Wan Beach from Grade 2 to Grade 3.

"The changes are generally within the normal range of fluctuation of the bacteriological water quality of the beaches," an EPD spokesman said.

Under the present grading system, beaches are classified into four grades according to the level of E. coli in the water. Grades are calculated on the basis of the geometric mean of the E. coli counts on the five most recent sampling occasions.

While the ratings represent the general water quality at the beaches, the EPD spokesman reminded members of the public that water quality could be temporarily affected during and after periods of heavy rain. Bathers should avoid swimming at beaches for up to three days after a storm or heavy rainfall.

A summary of beach grades is published weekly before the weekend. Latest beach grades based on the most current data may be obtained from the department's websites on Beach Water Quality (www.beachwq.gov.hk or www.epd.gov.hk/epd/beach) or the beach hotline, 2511 6666.
