

# Green Party statement on Southport Rioting

## 2. [Press Releases](#)

Amanda Onwuemene, Green Party Spokesperson for Policing and Domestic Safety said: “The far right is using disinformation around the horrific murders of children in Southport to do what it always does: spread hatred and fear.

“The attacks on a mosque and police by fascist thugs yesterday are an appalling violation of a community that has already suffered a devastating blow.

“The Green Party condemns this violence and stands in solidarity with the people of Southport against those who seek to divide it.”
