

# Green Peers respond to House of Lords appointments

Green Peers Jenny Jones and Natalie Bennett respond to news that new Peers have been appointed to the House of Lords:

“We are the two Green Party peers who have campaigned for the Lords to be replaced with an elected second chamber. We hope these new peers will join us in doing the same.

“If the second chamber matched the votes at the general election, there would be more than fifty greens under a fair votes system. Instead, we have the establishment parties constantly appointing people and increasing the size of the house for their own purposes.”
