

Green tech addresses waste and noise

The Green Tech Fund has to date supported 30 projects that align with the Government's aim of achieving carbon neutrality, awarding around \$130 million in total.

News.gov.hk spoke with representatives of the Environment and Ecology Bureau to understand the fund's research priorities. A technology company supported by the fund and focused on recycling plastics to create noise-absorbing materials also shared the features of the materials.

The story is available at www.news.gov.hk/eng/feature/ today (March 24) in text and video format.
