

Guangdong Provincial Public Security Department to start accepting new quota applications for Guangdong-Hong Kong cross-boundary private cars using Heung Yuen Wai Control Point

The Transport Department (TD) announced today (June 5) that the Guangdong Provincial Public Security Department (GDPSD) will start accepting new quota applications for Guangdong-Hong Kong cross-boundary private cars using the Heung Yuen Wai Control Point.

The Hong Kong and Guangdong governments agreed to issue quotas of 2 000 and 200 for Hong Kong and Mainland cross-boundary private cars respectively before the commissioning of the Heung Yuen Wai Control Point. Subject to the response, the two governments will consider increasing the quota for cross-boundary private cars to meet the demand.

The GDPSD will start accepting new applications for Guangdong-Hong Kong cross-boundary private cars using the Heung Yuen Wai Control Point from June 12. Eligible persons should submit their applications to the GDPSD. For details, please visit the GDPSD's website at gdga.gd.gov.cn/jgj/index.html.

The quota for Guangdong-Hong Kong cross-boundary private cars using the Heung Yuen Wai Control Point will be processed and regulated under the new management measures as implemented from April 15. For details of the new management measures, please refer to the press release issued by this Department on April 1 (www.td.gov.hk/en/publications_and_press_releases/press_releases/transport_department/index_id_3167.html).

Upon receipt of the Approval Notice for using the Heung Yuen Wai Control Point issued by the GDPSD, applicants need to apply for the Closed Road Permit (CRP) from the Cross Boundary Unit of the TD. Applicants have to complete all the formalities in both Hong Kong and the Mainland before driving across the border via the Heung Yuen Wai Control Point after the commissioning. For details of CRP application, please call the TD's hotline at 2804 2600 or visit the department's website at www.td.gov.hk.
