

Guidance: Animal by-product operating plants: approved premises

Updated: Approved animal by-product plants in Great Britain updated

Premises in Great Britain and the Channel Islands must be approved by the Animal and Plant Health Agency (APHA) to operate as an ABP plant.

The list of details follows the format laid down by the European Commission and is arranged in sections according to plant type:

- intermediate plants
- storage plants
- incineration plants
- processing (rendering) plants
- oleo-chemical plants
- biogas plants
- composting plants
- petfood plants
- specific users
- purposes outside of the food chain
- collection centres
- organic fertiliser/soil improver plants
- other registered plants

A list of approved and registered premises in the European Union is available on the [European Commission website](#)
