

Guidance: Code of practice for the sustainable use of soils on construction sites

Updated: We have clarified the status of this old publication, which has been retained for reference purposes.

This document, which dates from 2009, has not been reviewed or updated since. It may not exactly reflect current legislation or controls. It still provides relevant advice, and has been retained for reference purposes.

This code of practice is a practical guide to assist anyone involved in the construction industry to protect the soil resources with which they work. It is particularly intended for use in England.
