

Guidance: Electric Vehicle Homecharge Scheme eligible vehicles

Updated: List of vehicles eligible for the Electric Vehicle Homecharge Scheme.

All vehicles that have been approved as ultra-low emission vehicles by the Office for Low Emission Vehicles are eligible for the Electric Vehicle Homecharge Scheme.

This includes vehicles which may no longer be eligible for the plug-in car grant, either because they exceed the category 2 or 3 price cap or they are no longer on sale in the UK.

A [list of the vehicles that are eligible for the plug-in car grant](#).
