## Guidance: Environmental permitting charges guidance

*Updated:* Section 6.4 First year of operation charge: Minor update to clarify what the Environment Agency does for the additional first year charge.

You should also read the:

- <a href="mailto:charging scheme">charging scheme</a> which explains the legal basis for the Environment Agency's charges
- <u>tables of charges</u> which list the application charges and subsistence charges for different activities with an explanation of how to use the tables to work out your charges

The application charges for different activities are in part 2 of the <u>tables</u> of charges.

The subsistence charges are in part 3 of the tables of charges.

<u>Contact the Environment Agency</u> if you are not sure which activity description from the tables applies to your operations.
