

Guidance: IsItWaste tool: for advice on the by-products and end of waste tests

Updated: We've updated information on how to use our Definition of Waste Service to get an opinion on whether your waste derived material can be classed as non-waste.

Use the user guide to:

- access the IsItWaste tool
- do a self assessment to help you decide whether your material is likely to be waste
- ask the Environment Agency Definition of Waste Service for an opinion

The IsItWaste tool is for England only. It's based on English and Welsh case law. Northern Ireland and Wales may have similar tools.
