

Hainan's tallest building under construction in Haikou

The 429-meter-high Haikou Twin Towers under construction in the Hainan Dayingshan Central Business District, Haikou, will become the tallest building in Hainan Province.

With a total area of 720,000 square meters, the architecture resembles the lotus and Buddha's hands symbolizing the prayer and the dynamic emergence of Hainan.

It is more than just a landmark, as the multi-function towers will provide a sustainable way of life with a unique mix of restaurants, shops, offices, hotels and sightseeing spaces throughout the building.

Ju Kaiyong, vice manager of Haikou Twin Towers Project, said the skyscraper will provide living and working space for over 20,000 people and attract at least 3 million tourists per year. This will greatly promote the development of catering services, hotels, shopping and other related industries.

He said Haikou Twin Towers will be the future landmark of Hainan and is a key project for upgrading the global image of Dayingshan CBD and building Hainan into an international tourism island.
