

# Hawhill environmental improvements

## #dundeewestend

Many residents have commented to me what a good job the council's Neighbourhood Services has made of the corner site environmental improvement in Hawhill at the junction with Bellfield Street – opposite the Whitehall Theatre :

I am pleased the council agreed to my request that this site was **not** sold off to a property developer some months ago and the environmental improvements clearly make the point that keeping the site in public ownership was the right thing to do.
