

HKMA kicks off Global Financial Leaders' Investment Summit

The following is issued on behalf of the Hong Kong Monetary Authority:

â€‹The Global Financial Leaders' Investment Summit hosted by the Hong Kong Monetary Authority officially began today (November 1). The Summit welcomes over 200 international and regional leaders from around 120 global financial institutions including banks, securities firms, asset managers, private equity and venture capital firms, hedge funds, and insurers. More than 40 of these institutions are represented by their group chairmen or Chief Executive Officers.

Under the theme of Navigating Beyond Uncertainty, Mainland financial regulators will share their policy perspectives, while participants will share experience and exchange ideas at the Summit, with a focus on three sets of challenges and opportunities facing the global financial community, including the uncertainties brought by rising interest rates and the risk of stagflation, and the implications of mega trends such as technology and sustainability on the future of finance.

On November 1, the three-day event commenced with a welcome dinner at M+, followed by the Summit with speeches, panel discussions, and a fireside chat on November 2. The Summit will officially wrap up on November 3 with a programme of Conversations with Global Investors, co-hosted by the Hong Kong Academy of Finance.
