Further details of the HKMC's unaudited consolidated financial results and financial review for 1H 2018 are set out at the Annex.

Note 1: For better comparison, the adjusted annualised return on shareholders' equity and cost-to-income ratio for the six months ended June 30, 2017 would be 5.4% and 35.5% respectively after excluding the exceptional gains of HK\$210 million on disposal of available-for-sale investments arising from portfolio rebalancing and exchange gain of HK\$129 million mainly from the US dollar exposures in cash and debt investments.

Note 2: For debts with tenor of one year or above.
