

HKSAR Government supports issuance of fact sheet by Ministry of Foreign Affairs

The Hong Kong Special Administrative Region (HKSAR) Government fully supports the Ministry of Foreign Affairs' issuance of a fact sheet that sets out the malicious acts of the United States (US) in interfering in Hong Kong affairs and supporting anti-China, destabilising forces.

The US has been colluding with anti-China, destabilising forces for years and disseminating anti-China comments and thoughts via organisations and individuals with ulterior motives to incite emotions and advocate such ideas as "Hong Kong independence" and "self-determination", seriously jeopardising the sovereignty, security and development interests of the nation. Hong Kong had also become a gaping hole in national security, and the city's prosperity and stability were placed at risk.

The Ministry of Foreign Affairs has now exposed the US' malicious acts with ironclad evidence. Hong Kong people can now grasp the facts, understand clearly the years of interference by external forces in Hong Kong, and avoid falling prey to the malicious attempts of the US.

The HKSAR Government is grateful to the Central Authorities for their resolute actions in enacting the Hong Kong National Security Law at the critical juncture, allowing the HKSAR Government to prevent, suppress and impose punishment for any act endangering national security in accordance with the Hong Kong National Security Law. Following the improvement of the electoral system of the HKSAR, individuals with anti-China sentiment are prevented from entering the HKSAR's political system through elections, thereby demonstrating the full and faithful implementation of the principle of "patriots administering Hong Kong" institutionally.

In fact, Hong Kong society has since been transformed from chaos to governance, and gradually towards development and prosperity. With the country's staunch support, the business environment of Hong Kong not only remains intact, but is presented with unlimited business opportunities with the enormous opportunities brought about by the 14th Five-Year Plan and the Guangdong-Hong Kong-Macao Greater Bay Area development.

The HKSAR Government will continue to enforce the Hong Kong National Security Law resolutely and implement the principle of "patriots administering Hong Kong" fully and faithfully, firmly opposing and guarding against foreign forces interfering in the internal affairs of Hong Kong.
