

# Hong Kong Customs combats counterfeiting activities involving goods bound for United States (with photos)

Hong Kong Customs conducted a targeted operation in January to combat cross-boundary counterfeiting activities involving goods destined for the United States. About 10 000 items of suspected counterfeit goods with an estimated market value of about \$1.1 million were seized.

Through intelligence exchanges with the US customs authorities, Hong Kong Customs took enforcement action in January and stepped up inspection against suspicious express consignments destined for the United States.

During the operation, about 10 000 suspected counterfeit goods including medicine, mobile phones, handbags, shoes and clothing were seized.

Hong Kong Customs will continue to work closely with overseas law enforcement agencies to combat cross-boundary counterfeiting activities through intelligence exchanges and joint enforcement actions.

Under the Trade Descriptions Ordinance, any person who imports or exports any goods with any forged trademark commits an offence. The maximum penalty upon conviction is a fine of \$500,000 and imprisonment for five years.

Members of the public may report any suspected counterfeiting activities to Customs' 24-hour hotline 2545 6182 or its dedicated crime-reporting email account ([crimereport@customs.gov.hk](mailto:crimereport@customs.gov.hk)).
