Hong Kong Customs seized about 6 kilograms of suspected ketamine with an estimated market value of about \$4 million at Hong Kong International Airport on December 2.

Customs officers inspected an air parcel arriving in Hong Kong from France on that day and found the batch of suspected ketamine concealed in milk powder packages inside five carton boxes.

Upon follow-up investigation, Customs officers today (December 4) arrested a 35-year-old man suspected to be connected with the case in Tsim Sha Tsui.

Investigation is ongoing.

Customs will maintain close contact with Hongkong Post and the logistics industries to step up action against drug trafficking through postal parcels and express courier channels.

Under the Dangerous Drugs Ordinance, trafficking in a dangerous drug is a serious offence. The maximum penalty upon conviction is a fine of \$5 million and life imprisonment.

Members of the public may report any suspected drug trafficking activities to Customs' 24-hour hotline 2545 6182 or its dedicated crime-reporting email account (crimereport@customs.gov.hk).
