Hong Kong Customs yesterday (October 24) detected a drug trafficking case involving baggage concealment at Hong Kong International Airport and seized about 4 kilograms of suspected methamphetamine with an estimated market value of about \$2.2 million.

A 29-year-old female passenger arrived in Hong Kong from Penang, Malaysia, yesterday. During Customs clearance, the batch of suspected methamphetamine was found concealed in the false compartment of her check-in suitcase. The female was subsequently arrested.

An investigation is ongoing.

Following the resumption of normal travel and exchanges with the Mainland and other parts of the world, the number of visitors to Hong Kong has also been increasing steadily. Customs will continue to apply a risk assessment approach and focus on selecting passengers from high-risk regions for clearance to combat transnational drug trafficking activities.

Under the Dangerous Drugs Ordinance, trafficking in a dangerous drug is a serious offence. The maximum penalty upon conviction is a fine of \$5 million and life imprisonment.

Members of the public may report any suspected drug trafficking activities to Customs' 24-hour hotline 182 8080 or its dedicated crime-reporting email account ([crimereport@customs.gov.hk](mailto:crimereport@customs.gov.hk)) or online form ([eform.cefs.gov.hk/form/ced002](http://eform.cefs.gov.hk/form/ced002)).
