

[Hong Kong Space Museum screens new 3D dome show “Antarctica 3D” \(with photos\)](#)

The Hong Kong Space Museum will screen a new 3D dome show, "Antarctica 3D", at its Space Theatre from April 1 (Monday), leading audiences to explore the Antarctica.

Antarctica is known as the coldest, driest and windiest place on Earth. "Antarctica 3D" will take audiences into the animal world of Antarctica. It begins by diving into the vibrant undersea worlds beneath the ice and then returns to the land to visit the vast penguin colonies. Finally, audiences can see the possibly largest congregation of whales ever on screen. Whales play a crucial role in mitigating climate change. The show not only offers a visual spectacle to audiences, but also showcases the impact that overhunting of whales has had on the climate. Audiences will be able to reflect on and act urgently to protect Antarctica's ecosystem before rising temperatures threaten its balance and lead to global consequences.

€€

The 24-minute show will be screened until January 13, 2025. Screening times are 2pm and 6.30pm on weekdays and 12.30pm and 5pm on weekends and public holidays respectively. Tickets priced at \$24 (front stalls) and \$32 (stalls) are now available at the Hong Kong Space Museum Box Office and URB TIX (www.urbtix.hk). For details of the show, please visit hk.space.museum/en/web/spm/shows/3d-show/antarctica-3d.html, or call 2721 0226 for enquiries.

The Hong Kong Space Museum, located at 10 Salisbury Road, Tsim Sha Tsui, Kowloon, is closed on Tuesdays (except public holidays).
