

# Hong Kong Visual Arts Centre to showcase works by Art Specialist Course graduates (with photos)

The Hong Kong Visual Arts Centre (vA!) of the Art Promotion Office is staging the "Art Specialist Course 2023-24 Graduation Exhibition" from today (October 17) to November 4. The exhibition showcases the learning achievements by 22 graduates of the art specialist course, with a view to sharing the joy of artistic creation with the public. Admission to the exhibition is free.

Under the theme of "Resonance", participating students have utilised a variety of media, such as ceramic, wood, ink and creative expression techniques, to connect with the emotions of the visitors through their artworks. They invite visitors to seek resonance from their experiences and draw inspiration and insights from the art.

vA! strives to promote art learning by organising diverse activities, enabling individuals from different walks of life to explore art and cultivate creativity. The new round of "vA!cademy" will be launched, including the popular Art Specialist Course and Art Advanced Course. The course content of the 2024-25 Art Specialist Course will cover "Sculpture, Body and Space" as well as "Drawing, Painting and Printmaking", while that of the 2024-25 Art Advanced Course will cover "Ceramics" and "Landscapes, Flowers and Birds". Both courses will be taught by a group of professional and experienced artists. Course applications are open from now until November 1.

For details of the course application and the exhibition, please visit the website of vA! [www.apo.hk/en/web/apo/va\\_projects\\_and\\_programmes.html](http://www.apo.hk/en/web/apo/va_projects_and_programmes.html) or call 2521 3008 for enquiry.
