

Hospital Authority announces positive patient cases detected via admission screening or testing and clusters of nosocomial COVID-19 infections

The following is issued on behalf of the Hospital Authority:

The Hospital Authority today (April 27) announced information regarding patients who tested positive via admission screening or testing with patients or staff members identified as close contacts and nosocomial COVID-19 infection cases.

The following are the statistics of clusters of nosocomial infection cases in public hospitals:

Hospital/clinic	Number of patients who tested positive	Number of staff members who tested positive
Queen Mary Hospital	1	–

Thorough cleaning and disinfection operations have been performed in the affected areas by hospitals. The hospitals will continue to closely monitor the health condition of patients and staff members, and communicate with the Centre for Health Protection on the latest situation.

There have been no patients who tested positive via admission screening or by testing in public hospitals with patients or staff members identified as close contacts reported in public hospitals today.
