

HSL: Slips and Trips-Falls Prevention – Buxton, 31 Oct 2017

[Book Course](#)

HSL is to run a 1 day course on Slips and Trips – Falls Prevention.

31 October 2017

Introduction

Slips, trips and falls are the leading cause of major injuries in the workplace. These injuries can be devastating for the individual involved and they generate a huge financial burden on industry. Almost all slips and trips can be prevented, often with simple inexpensive interventions.

Slips and trips can happen for a number of reasons, but all too frequently people jump to conclusions about why they happen rather than looking for the true cause, or assume that it is 'just one of those things' and do nothing.

The biggest challenges when trying to reduce slips in the workplace are knowing where to get reliable information on flooring, understanding the ins and outs of cleaning, and knowing how to select footwear. Understanding the science behind slips and trips makes it easier to identify the true cause of a fall and prevent future incidents.

This course will help you understand the causes of slips, trips and falls, and highlight successful interventions that offer a great starting point for organisations looking to reduce falls. It is delivered by experts in accident investigation and has a practical focus on understanding the causes of slips, trips and falls and reducing the risk of future incidents.

Previous attendees of our slip, trip and fall training courses have reported a reduction in incidents of up to 50%.

Course includes

- Why people slip – the slip potential model
- Characterising flooring, which tests work, which don't and why
- The role of contamination in slip accidents
- The effect that good and bad cleaning techniques can have on slips
- How footwear can help in reducing slip accidents
- Preventing trips
- The causes of stair falls and how to reduce the risk

There will also be an opportunity to visit the Falls Prevention Team laboratory and see slip testing in action.

Who should attend

Anyone who is involved in managing slips and trips, particularly those responsible for selecting flooring or footwear in their business. Employees involved in critical operations such as cleaning.

The course can also be tailored to suit all businesses and employees. Bespoke versions of this course for specific organisations can be developed on request.

Venue

The course will be run at the HSL laboratory in the spa town of Buxton. Buxton is in the heart of the Peak District and has good links to mainline train stations and Manchester International Airport.

Details of hotels in the Buxton area can be found at www.visitbuxton.co.uk

Cost

The cost of this course is £450 per person (includes course notes, lunch and refreshments).
