

Import of poultry meat and products from areas in Poland suspended

The Centre for Food Safety (CFS) of the Food and Environmental Hygiene Department announced today (April 7) that in view of notifications from the General Veterinary Inspectorate of Poland about outbreaks of highly pathogenic H5N8 avian influenza in NowosÅ„decki District and Limanowski District of MaÅ„opolskie Region; MÅ„awski District of Mazowieckie Region; CieszyÅ„ski District of ÅšlÅ„skie Region and MrÅ„gowski District of WarmiÅ„sko-mazurskie Region in Poland, the CFS has instructed the trade to suspend the import of poultry meat and products (including poultry eggs) from the above-mentioned areas with immediate effect to protect public health in Hong Kong.

A CFS spokesman said that according to the Census and Statistics Department, Hong Kong imported about 13 500 tonnes of frozen poultry meat and about 39.08 million poultry eggs from Poland last year.

"The CFS has contacted the Polish authorities over the issues and will closely monitor information issued by the World Organisation for Animal Health and the relevant authorities on the avian influenza outbreaks. Appropriate action will be taken in response to the development of the situation," the spokesman said.
