

[Independent report: Operational safety review, Torness nuclear power station, 2018: independent report and government response](#)

The IAEA Operational Safety Review Team (OSART), an independent team of industry experts, led a mission to review the operational safety at Torness nuclear power station from 22 January to 8 February 2018.

This OSART report includes operational safety recommendations and highlights good practices found at Torness, for consideration by the relevant UK authorities and EDF Energy.

The government has published a response to the report.
