

Julie Cooper reponds to 20p increase in prescription charges

Julie Cooper MP, Labour's Shadow Health Minister for Care in the Community, commenting on the 20p increase in prescription charges, said:

"It is disappointing to see the Government increasing prescription charges. While 20p may not seem a lot it will impact on those people who are already struggling with the rising cost of living. At the same time the Government is also increasing patient charges for NHS dental care, as well as raising charges for wigs and fabric supports.

"The rise in prescription charges is a reflection of this Government's financial mismanagement of the National Health Service. At a time when the cost of living continues to rise the Government ought to be doing much more to help people with the cost of healthcare."
