The Census and Statistics Department (C&SD) published today (July 16) the July 2018 issue of the "Hong Kong Monthly Digest of Statistics" (HKMDS).

Apart from providing up-to-date statistics, this issue also contains two feature articles entitled "Foreign Affiliates Statistics of Hong Kong" and "The Profile of Hong Kong Population Analysed by District Council District, 2017".

"Foreign Affiliates Statistics of Hong Kong"

With increasing globalisation of the world economy, it becomes popular for multinational enterprises to provide services to customers in another economy through setting up affiliated companies abroad.

In view of the growing importance of services supplied via this mode, the C&SD has developed a statistical framework for compiling relevant statistics, known as "foreign affiliates statistics (FATS)". This feature article briefly describes the statistical system for compiling inward FATS, and presents selected inward FATS of Hong Kong for 2016.

For enquiries about this feature article, please contact the Trade in Services Statistics Section, C&SD (Tel: 3903 7410; email: tis@censtatd.gov.hk).

"The Profile of Hong Kong Population Analysed by District Council District, 2017"

The C&SD annually compiles statistics on the demographic and socio-economic characteristics of the population by District Council district based on data collected from the General Household Survey. This feature article provides an analysis on the profile of the population of Hong Kong for various District Council districts in 2017.

For enquiries about this feature article, please contact the Household Statistics Analysis Section, C&SD (Tel: 2887 5208; email: ghs@censtatd.gov.hk).

Published in bilingual form, the HKMDS is a compact volume of official statistics containing about 140 tables. It collects up-to-date statistical series on various aspects of the social and economic situation of Hong Kong. Topics include population; labour; external trade; National Income and Balance of Payments; prices; business performance; energy; housing and property; government accounts, finance and insurance; and transport, communications and tourism. For selected key statistical items, over 20 charts depicting the annual trend in the past decade and quarterly or monthly trend in the recent two years are also available.
