The Census and Statistics Department (C&SD) published today (June 15) the June 2021 issue of the "Hong Kong Monthly Digest of Statistics" (HKMDS).

Apart from providing up-to-date statistics, this issue also contains a feature article entitled "Analysis of Hong Kong's Imports of Goods".

"Analysis of Hong Kong's Imports of Goods"

Hong Kong is an externally oriented economy. In 2020, the value of Hong Kong's total exports of goods amounted to \$3,927.5 billion, while that of imports of goods was \$4,269.8 billion. The ratio of the value of total exports of goods to Hong Kong's Gross Domestic Product (GDP) was 1.5, while that of the value of imports of goods to GDP was 1.6.

Goods consumed locally in Hong Kong and for exports are both largely based on imports. This feature article analyses the performance of Hong Kong's imports of goods in recent years.
