

# Labour Department highly concerned about fatal work accident today

The Labour Department (LD) is highly concerned about the work accident that happened at a residential estate in Ho Man Tin today (May 24), in which a worker fell down from the top of a water tank on the roof of a building and sustained fatal injury. The LD is saddened by the death of the worker and has expressed its deepest sympathy to the victim's family.

The LD's spokesman said, "We commenced immediate on-site investigation as soon as we were notified of the accident and will issue suspension notices to the contractors/employer involved to suspend all work activities at the water tank concerned. The contractors/employer cannot resume the work process until the LD is satisfied that measures to abate the relevant risk have been taken."

The spokesman added, "We will complete investigation as soon as possible to identify the cause of the accident, ascertain the liability of the duty holders and recommend improvement measures. We will take actions pursuant to the law if there is any violation of the work safety legislation."

The general duty provisions of the Factories and Industrial Undertakings Ordinance require employers to provide safe working environments, safe plant and safe systems of work for their employees. Those who contravene the above provisions are liable to a maximum fine of \$500,000 and imprisonment for six months.

In regard to today's accident, the LD will issue a Work Safety Alert through its website and email, giving a brief account of the accident concerned to duty holders, workers' unions, professional bodies of safety practitioners and others, and reminding the industry of the importance of following safety precautionary measures to prevent recurrence of similar accidents.

The LD will also remind the employer concerned of the liability for employees' compensation under the Employees' Compensation Ordinance, assist family members of the deceased to claim employees' compensation and closely follow up on the case. For those with financial difficulties, the LD will assist them to apply for appropriate emergency funds. Subject to the needs and wishes of family members of the deceased, the LD will also liaise with the Social Welfare Department for financial or other assistance.

For the sake of securing the safety and health of employees at work, the LD appeals to employers to provide plant and systems of work that are safe and without risks to health. Employees should co-operate with their employers, adopt all safety measures and use personal protective equipment provided properly to avoid endangering their own work safety and that of other workers.
