

Labour Department highly concerned about fatal work accident yesterday

The Labour Department (LD) is highly concerned about a fatal work accident that happened at a Maternal and Child Health Centre in Yau Ma Tei yesterday afternoon (August 15), in which a female security guard while closing an electric metal sliding gate at the entrance of the health centre was pressed by a toppled leaf of the gate. The worker was certified dead later in hospital. The LD is saddened by the death of the worker and expresses its deepest sympathy to the victim's family.

The LD spokesperson said, "We commenced immediate on-site investigation as soon as we were notified of the accident and issued suspension notices to the employer and occupiers of the premises to suspend the installation, maintenance and use of electric gate. The duty holders cannot resume the work until the LD is satisfied that measures to abate the relevant risks have been taken."

The spokesman added, "We will complete investigation as soon as possible to identify the cause of the accident, ascertain the liability of the duty holders and recommend improvement measures. We will take action pursuant to the law if there is any violation of the work safety legislation."

The general duty provisions of the Occupational Safety and Health Ordinance require occupiers of premises/employers to provide safe working environments, plant and systems of work for their employees. Those who contravene the above provisions are liable to a maximum fine of \$200,000 and imprisonment for six months.

In regard to yesterday's accident, the LD will issue a Work Safety Alert through its website and email, giving a brief account of the accident concerned to duty holders, workers' unions, professional bodies of safety practitioners and others, and reminding the industry of the importance of following safety precautionary measures to prevent recurrence of similar accidents.

The LD will also remind the employer concerned of the liability for employees' compensation under the Employees' Compensation Ordinance, assist family members of the deceased to claim employees' compensation and to closely follow up on the case. For those with financial difficulties, the LD will assist them to apply for appropriate emergency funds. Subject to the needs and wishes of family members of the deceased, the LD will also liaise with the Social Welfare Department for financial or other assistance.

For the sake of securing the safety and health of employees at work, the LD appeals to employers to provide plant and systems of work that are safe and without risks to health. Employees should co-operate with their employers, adopt all safety measures and use personal protective equipment provided properly to avoid endangering their own work safety and that of

other workers.
