

Lake Lothing Third Crossing granted development consent

Press release

Today, Thursday, 30 April 2020, the application for the Lake Lothing Third Crossing has been given development consent by the Secretary of State for Transport.

Development consent has been granted to construct a new highway crossing of Lake Lothing, Lowestoft, connecting Riverside Road to the south of Lake Lothing with Peto Way to the north of Lake Lothing.

The application was submitted to the Planning Inspectorate for consideration by Suffolk County Council on the 13 July 2018 and accepted for examination on 9 August 2018. Following an Examination during which the public, statutory consultees and interested parties were given the opportunity to give evidence to the Examining Authority, a recommendation was made to the Secretary of State on 5 September 2019.

The Planning Inspectorate is committed to giving local communities the opportunity of being involved in the examination of projects that may affect them. Local people, the local authority and other interested parties were able to participate in the 6 month long examination. The Examining Authority listened and gave full consideration to local views before making their recommendation.

The Planning Inspectorate's Chief Executive, Sarah Richards said: "The Planning Inspectorate has again demonstrated its ability to examine Nationally Significant Infrastructure Projects (NSIPs) within timescales laid down in the Planning Act 2008 providing developers and investors with the confidence to build and improve the infrastructure this country needs to secure future economic growth."

The decision announced today supports the recommendation made by the Planning Inspectorate. It is the 84th Nationally Significant Infrastructure Project to be examined and decided and brings the total of transport projects to twenty

seven.

The decision, the recommendation made by the Examining Authority to the Secretary of State and the evidence considered by the Examining Authority in reaching its recommendation is publicly available on the [National Infrastructure Planning website](#).
