

# M25 junction 28 improvements development consent decision

The application is to upgrade junction 28 of the junction between the M25 anti-clockwise and the A12 in Essex, including the provision of a dedicated link for this right-turn movement and minor improvements of the existing roundabout.

The application was submitted to the Planning Inspectorate for consideration by Highways England on 27 May 2020 and accepted for Examination on 24 June 2020.

Following an Examination during which the public, Statutory Consultees and Interested Parties were given the opportunity to give evidence to the Examining Authority, recommendations were made to the Secretary of State on 16 September 2021.

This is the 112th Nationally Significant Infrastructure Project and 40th transport application to have been examined by The Planning Inspectorate within the timescales laid down in the Planning Act 2008.

The Planning Inspectorate's Chief Executive, Sarah Richards said:

"The Planning Inspectorate has now examined more than 100 nationally significant infrastructure projects since the Planning Act 2008 process was introduced, ensuring local communities have had the opportunity of being involved in the examination of projects that may affect them.

This Examination took place during the COVID-19 pandemic and its associated restrictions and the Examining Authority worked hard to ensure that local people, the local authority and other Interested Parties were able to fully participate.

The Examining Authority listened and gave full consideration to local views and the evidence gathered during the Examination before making its recommendation."

The decision, the recommendation made by the Examining Authority to the Secretary of State and the evidence considered by the Examining Authority in reaching its recommendation are publicly available on the [project pages of the National Infrastructure Planning website](#)
