Last updated 16 March 2021 [+ show all updates](#)

## 1. 16 March 2021

We have issued an updated statement. It is still the case that it has not been confirmed the reported blood clots were caused by the COVID-19 Vaccine AstraZeneca.

## 2. 15 March 2021

We have updated our statement.

## 3. 14 March 2021

First published.
