## **Background**

Technical information relating to risk-free interest rate (RFR) term structures is used for the calculation of the technical provisions for (re)insurance obligations.

In line with the Solvency II Directive, EIOPA publishes technical information relating to RFR term structures on a monthly basis via a dedicated section on EIOPA's Website also containing the release calendar for 2020, the RFR Technical Documentation, the RFR coding and Frequently Asked Questions.

With this publication, EIOPA ensures consistent calculation of technical provisions across Europe.
