

More help for families in need- the Council will have access to new fund

This new support fund, at least half of which will help families with children, will bolster existing measures we have introduced for low-income households, such as increasing the national living wage, the rise in the Local Housing Allowance, expanding the £221 million Holiday Activities and Food which will be offering nutritious meals and enriching activities to disadvantaged children this Christmas, doubling free childcare for eligible working parents and increasing the value of Healthy Start vouchers by over a third. The Fund also sits alongside the Warm Home Discount which provides a £140 rebate on energy bills each winter to over 2.2 million low-income households and the Cold Weather Payment which provides £25 extra a week for poorer households when the temperature is consistently below zero. Please direct constituents in need of support to their local council who will be able to help them access the Fund. The Barnett formula will apply in the usual way, with the devolved administrations receiving £79 million on top of the £421 million for England.
