

More money for roads maintenance

The Minister for Roads has written to me and other MPs today to tell us how he intends to divide up the £420 m of money this year announced in the Budget for additional highways maintenance.

He tells me that Wokingham will receive an extra £1,177,000 and West Berkshire an extra £1,913,000. I look forward to our Councils bringing forward more schemes to fill more potholes, mean more road edges and improve surfaces. This money is on top of existing maintenance budgets.
