

# Nation calls for greater poverty relief effort

The Political Bureau of the Communist Party of China (CPC) Central Committee held a meeting Friday, calling for greater effort on poverty alleviation.

Members of the bureau heard reports on provincial Party committees and governments' achievements and evaluation work on poverty relief in 2016 during the meeting, presided over by Xi Jinping, general secretary of the CPC Central Committee.

China has set 2020 as the target year to finish building a moderately prosperous society in all aspects, and "the hardest part is to lift poor rural population and counties out of poverty and eradicate poverty on a regional basis," said a statement issued after the meeting.

The meeting agreed that achievements made during the past years showed that the goal could be accomplished as long as practical and solid effort was made and current policy and work intensity maintained.

Salient problems, however, remain, including low quality poverty relief, a lack of targeted measures and lax supervision of funds, according to the statement.

Stressing strict requirements during poverty elimination, the CPC leadership said the work report system and responsibility system for poverty elimination must be effectively enforced.

In addition, strict evaluation and inspection of poverty alleviation must be carried out to ensure goals are achieved.

The people's interests should be put in first place in advancing poverty relief, while leading officials at various levels should strengthen their sense of mission and responsibility and synergize efforts, the statement said.

Poverty relief is the historical mission of the CPC and the responsibilities of heads of Party committees, governments and departments at various levels, it said.

The meeting also called for effort to consolidate the foundations of precise poverty alleviation, take corresponding measures and inspire officials and people in areas with poverty.

The requirements of strict Party governance should be implemented comprehensively and responsibilities on poverty elimination should be fulfilled faithfully, the statement said.

Evaluation of poverty relief should play its role and pragmatic work styles be followed, it noted.

China aims to reduce the number of rural residents living in poverty by over 10 million in 2017, including 3.4 million relocated from inhospitable areas.
