

National Clinical Impact Awards: 2022 round dates

From March 2022, the national Clinical Excellence Awards have been renamed the national Clinical Impact Awards. Our home page will be updated shortly to reflect this change.

The 2022 round of the national Clinical Impact Awards will open for applications on Wednesday 27 April, with registration for a new online application system opening shortly before.

Consultants and academic GPs wishing to apply for an award will be able to do so until Wednesday 22 June, with scoring and governance processes taking place throughout summer and autumn. Despite the later opening of the round than in 2021, the entire process will be completed at the usual time.

More details can be found in the updated [applicant guidance](#). Other guidance will be published shortly.
