

National Statistics: Latest statistics on milk utilisation by dairies – national statistics

Updated: Updated with statistical bulletin and dataset for August 2018.

This monthly statistics notice includes information on the volume of milk used by dairies in the United Kingdom in the production of drinking milk and milk products. This gives UK milk availability and disposals and the production of liquid drinking milk and milk products such as cheese, butter and milk powders.

If you require datasets in another format such as Excel, please get in touch, contact details are given below.
