

National Statistics: Monthly feed-in tariff commissioned installations

Updated: June 2018 FiTs deployment statistics published.

Statistics presented in the monthly table show the number of installations and capacity installed, broken down by technology type. These schemes have been registered on the Microgeneration Certification Scheme – MCS Installation Database or accredited through the ROOFiT scheme. Not all the schemes in the table below will have completed registration for a Feed-in tariff, there is no guarantee that all installations will be eligible for or decide to apply for the FITs.

As of 25 January, this table will be updated on a quarterly basis (but retaining a monthly time-series).

Contacts

Press enquiries should be directed to the BEIS press office:

Tel: 020 7215 1861 / 020 7215 8930.
