

National Statistics: UK sea fisheries annual statistics report 2013

Each statistical table breaks down information by key areas, such as species and landing port. They are presented according to the chapter of the report they relate to.

The following underlying data sets provide full information on landings, both quantity and values, by vessel length (such as 10 metres and under and over 10 metre vessels), gear grouping and species.

Summary of changes to tables

The statistical tables in both the United Kingdom Sea Fisheries Statistics publication itself and accompanying tables may differ slightly from year to year. This summary details changes to the tables since 2006.
