

Nature & Technology

As has been part of our practise for many years, **welters**[®] focus with determination to embrace nature, and the environment, in our products and philosophies. This is achieved through the use of UK resources and facilities and includes the use of reconstituted materials within our manufacturing processes. We endeavour to maintain our 'Made in Britain' ethos and develop product designs that are in keeping with our natural habitat.

welters[®] has always attempted to minimise imports, especially of non-environmentally friendly material, and particularly when exported from the opposite side of the globe and produced by nations which may pay less attention to environmental issues. **Welterstone** was created as a solution to this issue, producing products manufactured locally from indigenous quarried material. As a result of the success of **Welterstone**, **welters**[®] has not imported any material for several years.

We look forward to the continuation of the development of our range of products and materials and embrace the future wholeheartedly.
