new date announced

NDA announces new date for Supply Chain Event 2022

The NDA's ninth supply chain event will now be held on 3 February 2022.

Originally due to take place in June 2020 at The International Centre, Telford, the event was postponed due to the Coronavirus pandemic.

The same venue will be used for the upcoming event.

The Supply Chain Award's ceremony will take place on the same day with the application deadline being 12 noon on 1 October 2021.

Launched in 2011, the supply chain event has attracted a total of around 10,000 visitors from more than 20 countries, representing thousands of companies both large and small.

It has been an overwhelming success in engaging with the suppliers that are essential to achieving the NDA's decommissioning mission.

The event has grown from attracting a few hundred visitors to almost 1,700 and is now the largest event of its kind anywhere in Europe.

It provides an opportunity to network with more than 300 exhibiting companies and is aimed at attracting new business to the nuclear decommissioning sector – with a particular focus on SMEs.

See the [supply chain event website](#) for further information. Registration opens next week.

Follow NDA social media channels (below) for the latest updates.
